// PROJECT OVERVIEW

This is the final composition for rendering. In this composition, assembled all the Scenes. You can start the customization here.

In «Logo Holder» insert Your Logo

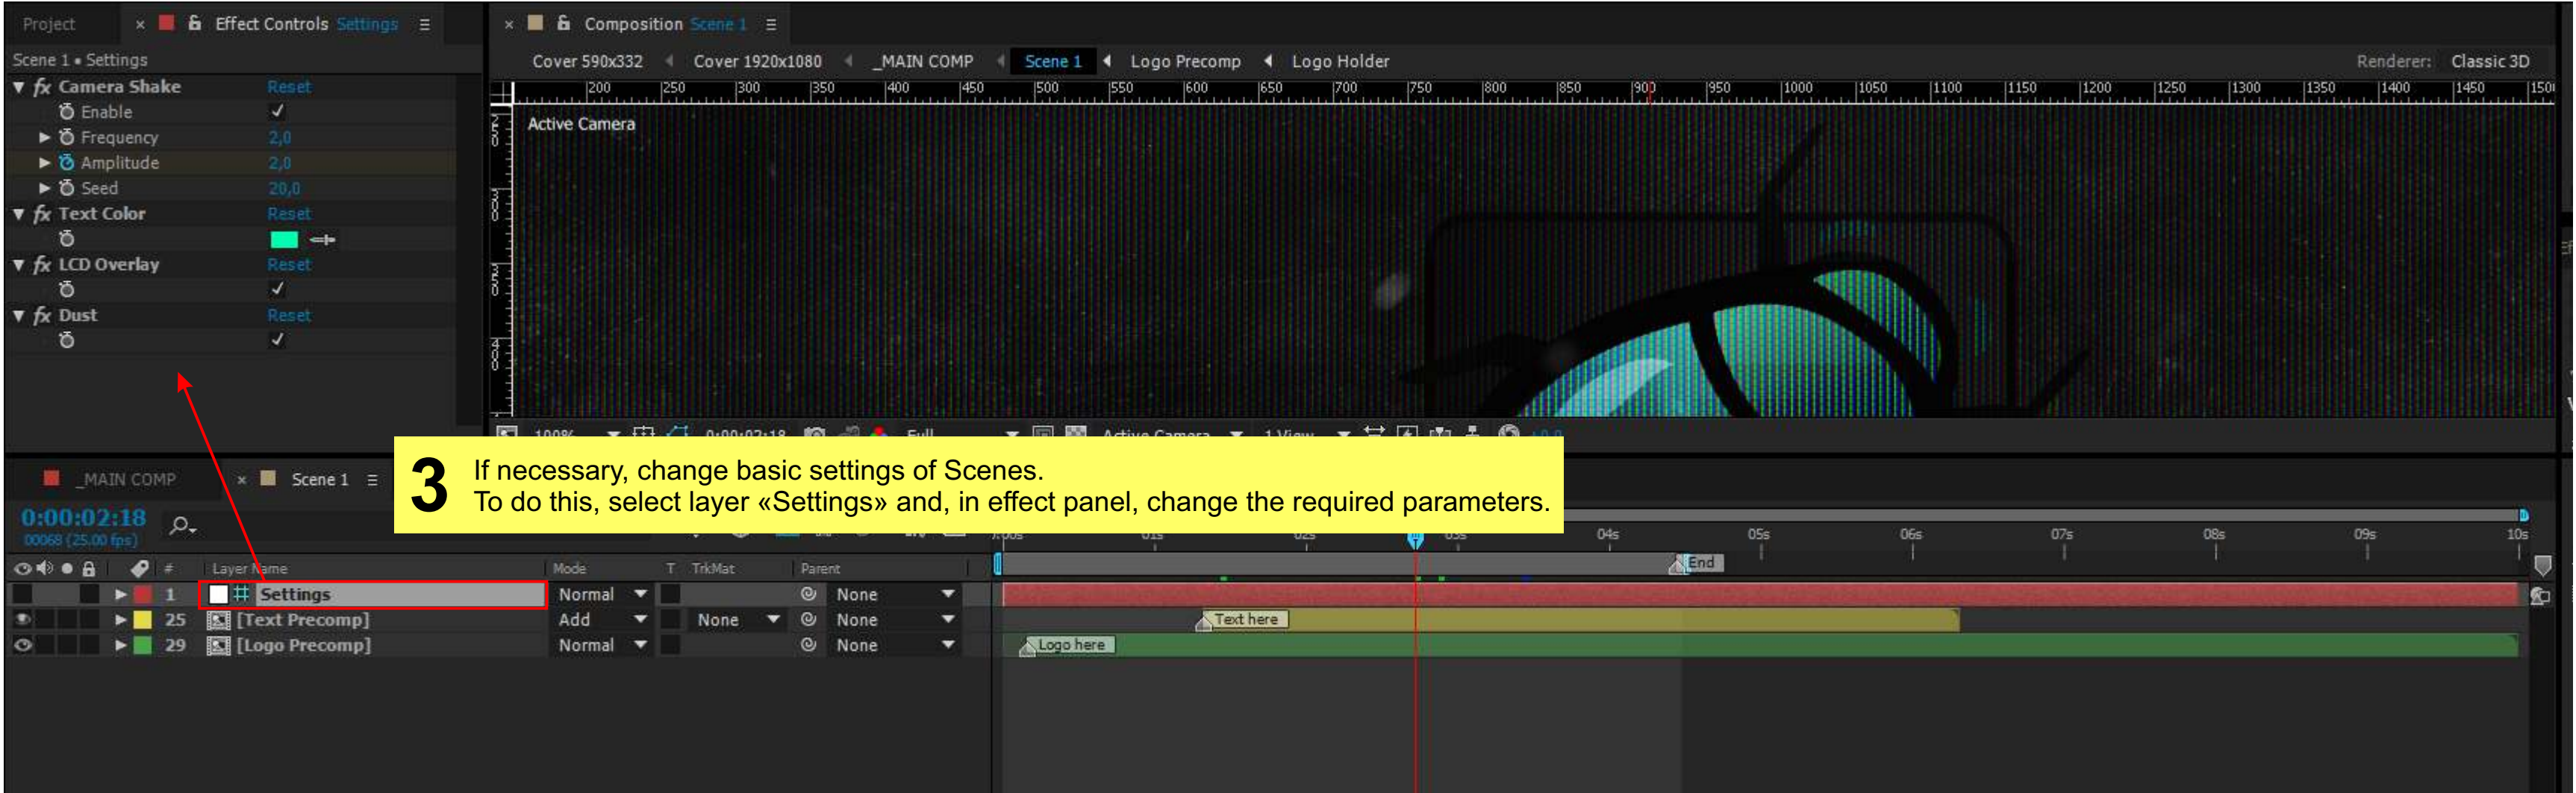

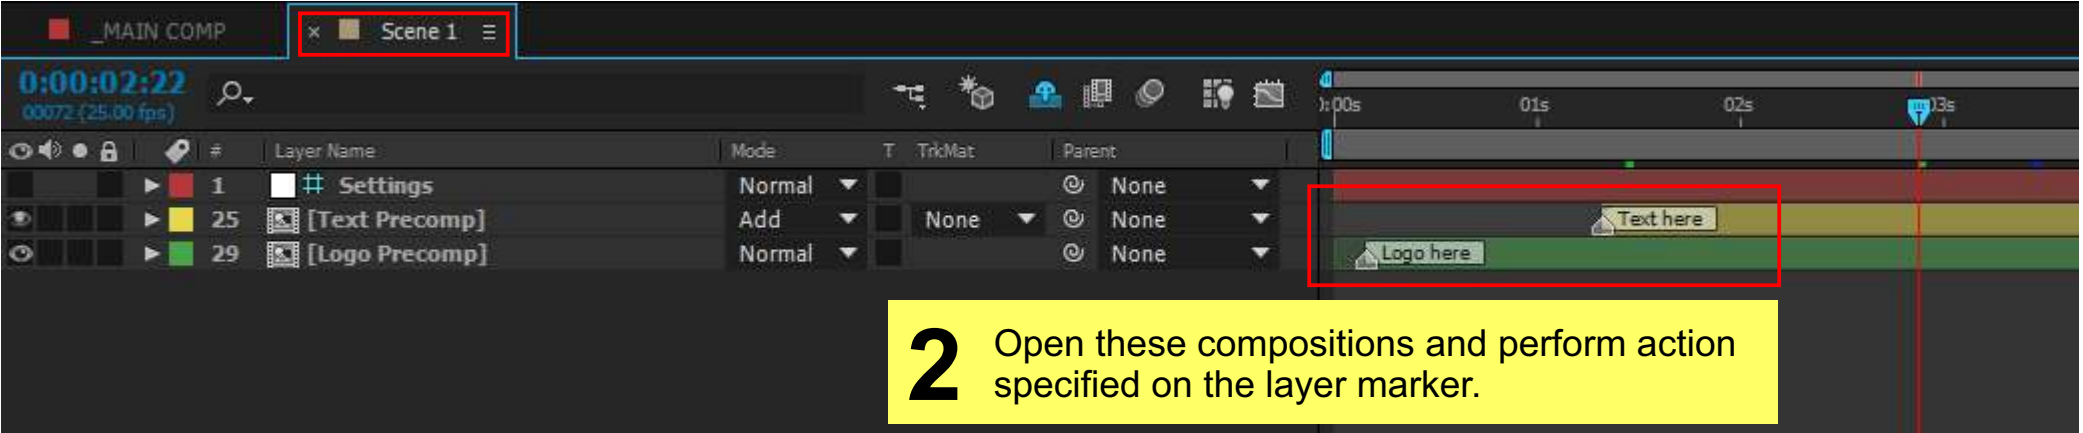

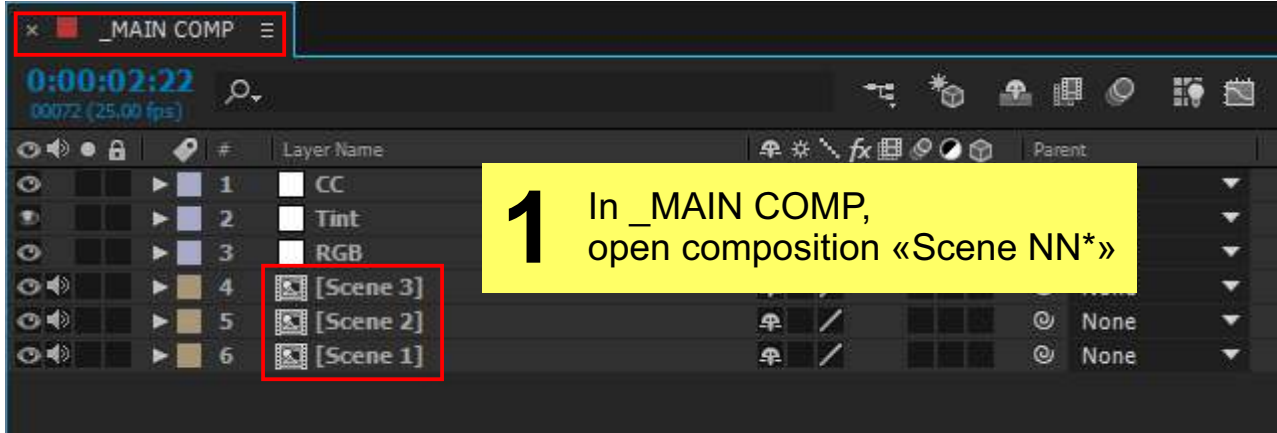

In «Footage Holder» insert Your footage

In «Text Holder», replace text

The screenshot displays the Adobe After Effects interface. The main composition window shows a dark background with a glowing green logo and the text "YOUR TAGLINE". The Project panel on the left lists the hierarchy: MAIN COMP, HOLDERS (Logo Holder, Media Holder, Text Holder 1, Text Holder 2, Text Holder 3-1, Text Holder 3-2), SCENES, and Other. The Timeline panel at the bottom shows a sequence of layers: CC, Tint, RGB, and three scene layers ([Scene 3], [Scene 2], [Scene 1]). A red vertical line marks the current time position at 0:00:03:11. A blue callout box at the bottom right suggests deleting one of the scene compositions to reduce the number of scenes.

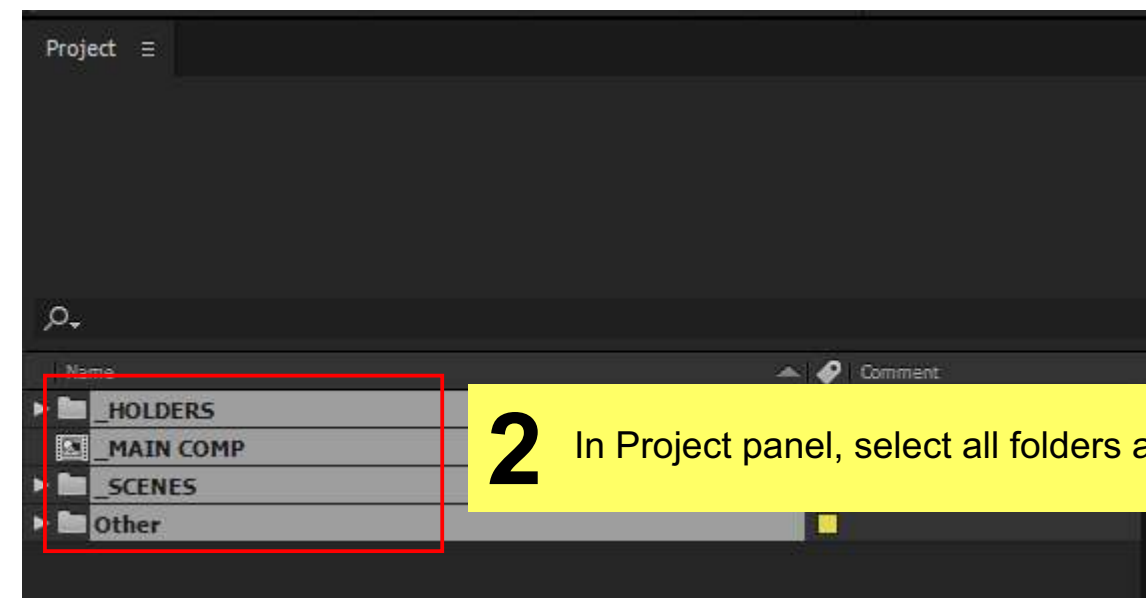

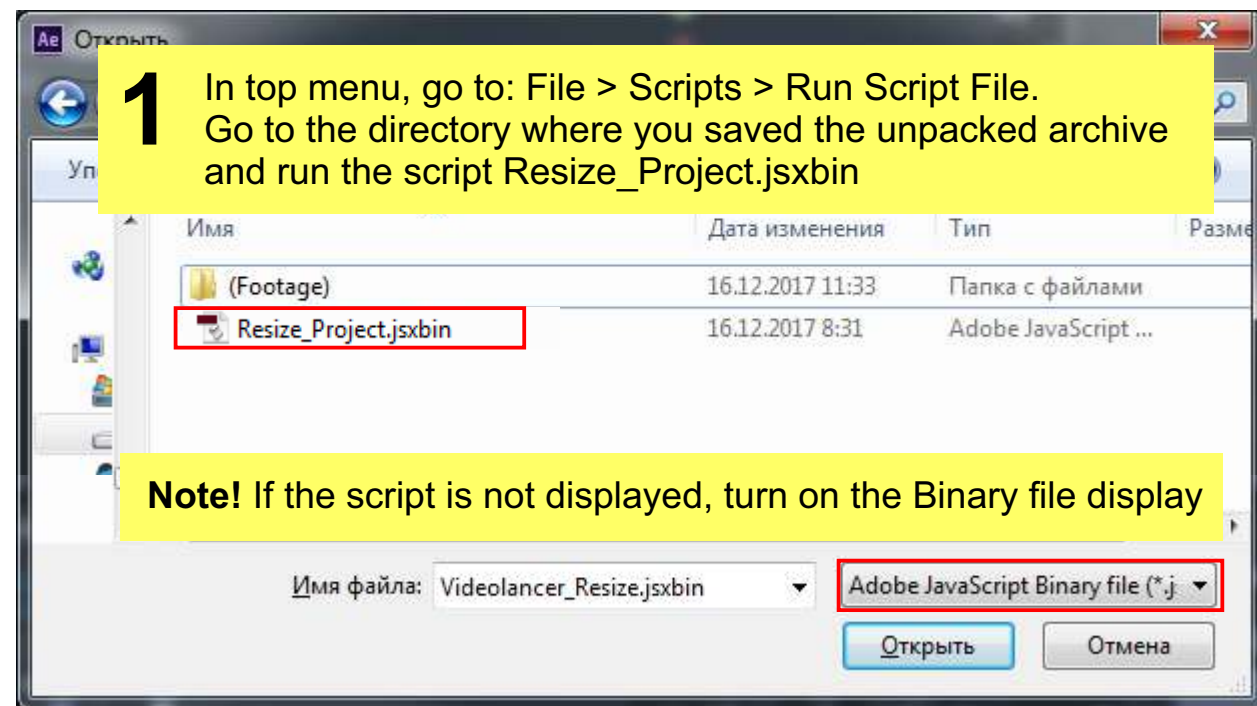

If you want to reduce number of scenes, just delete one of these compositions

// CUSTOMIZATION

*NN - number

// RESIZE PROJECT

3 In script panel, set the required resolution and click on the Change button

Note! When resolution more than 4096x2304, there may be problems and errors in the project

Thank You for purchase!
